## JENNIFER'S MFG.LTD.,HAIYAN 4 Layer Supermarket Retail Display Shelves Feature and Application:

**4 Layer Supermarket Retail Display Shelves** is made of steel and wood. We use silver color to make the products more elegant and more in line with the public perception. Shelves are divided into four floors, each floor of the load-bearing capacity of 200kg, put it in the kitchen can be placed in a large number of items. In order to meet the different needs of customers, in addition to the above display style, we can also carry out the size and color customization. The frame is made of durable riveted steel with a gunmetal gray powder coat finish that provides rust resistance for a longer product life. Each shelf is made of rugged laminated material, too. Since the shelves are solid, they are great for storing items that might tip over or fall through regular wire shelves or vented shelves.
